 Muhammed Sahal N M

PROFILE

Aspiring MERN Stack Developer with hands-on experience in MongoDB, Express.js, React.js, and Node.js. Skilled in RESTful APIs, JWT authentication, and Redux, building scalable and user-friendly web applications. A self-driven learner with strong problem-solving abilities, eager to contribute to real-world projects and grow as a full-stack developer.

PROFESSIONAL EXPERIENCE

Software Development Intern, Corpus Datahub

10/2024 – Present
Kozhikode,India

- Gained hands-on experience in MongoDB, Express.js, React.js, and Node.js.
- Worked on backend development, implementing CRUD operations, RESTful APIs, and JWT-based authentication.
- Built and integrated dynamic user interfaces using React.js, Redux, and API consumption.
- Strengthened problem-solving and debugging skills by developing and deploying real-world projects.
- Collaborated with a team to improve application architecture, database performance, and code quality.

EDUCATION

Bachelor of Computer Applications (BCA), University of Calicut

2021 – 2025
Vadakara, India

SKILLS

Programming & Development

- Languages: JavaScript(ES6)
- Frameworks & Libraries: React.js,Express.js,Redux
- Backend Development: RESTful APIs, Authentication (JWT, OAuth), Middleware, Node.js
- Frontend Development: React.js, HTML5, CSS3
- Database Management: Mongo DB(CRUD Operations,Aggregation,Indexing)
- Version Control: Git, GitHub

Software & Tools

Visual Studio Code (VS Code), Visual Studio

PROJECTS

E-Commerce Fashion Store (In Progress)

Present

- Developed a full-stack e-commerce platform for fashion products, implementing secure authentication and an intuitive, user-friendly interface.
- Built a RESTful API using Node.js and Express.js for product management, user authentication, and order processing.
- Implemented JWT authentication for secure login and role-based access control.
- Designed a responsive frontend using React.js, providing smooth navigation and mobile-friendly user experience.
- Utilized MongoDB with Mongoose for database management, including CRUD operations and efficient querying.
